

TOOL SETS FOR CUMMINS DIESEL ENGINES

TorqLite manufactures hydraulic tensioning tool sets for Cummins Diesel engines. Our sets ensure quick and accurate tensioning of critical bolts on cylinder heads.

SPECIFICATION:

Compression between the engine components is evenly distributed due to uniform stud loading reducing the risk of engine failure and consequent downtime and repair costs.

This ensures equal loading across the cylinder head gaskets, delivering reliable engine performance between planned overhauls.

All tool sets are complete with certificates, operating manual and storage box.

CUMMINS SET FOR MODEL QSV91 TO SUIT CYLINDER HEAD

QTY	DESCRIPTION
4	M30 x 3.5 Hydraulic Tensioner
1	1000 bar Hand Pump
3	1.5m Nipple to Coupler Flexible Hose
1	3m Nipple to Coupler Flexible Hose
2	8mm diameter Tommy Bar
